ABOUT COMPANY

Introducing Pakistan's most simple, advance, web based and easy to use solution for Laboratories, Diagnostic Centers & Clinics. Patient Dealing, Test Booking, Test Reporting and Online Reports. A complete LIMS suit for all your Laboratory and Diagnostics needs.

LabCloud (LIMS) is a modern age management system that can manages your pathological laboratory, diagnostic center and clinic process. Many medium to large laboratories and diagnostic centers are using LabCloud LIMS to effectively manage their internal processes like test booking, sample management, worksheets, and test reporting They are also offering convenience to their patients and other fellow laboratories by giving online reporting service via LabCloud. LabCloud (LIMS) is suitable for any size of lab that deal with thousands of patients a month. Whether a lab is small and have one location or have multiple locations in multiple cities. LabCloud can fulfill the requirements and give the experience beyond imagination.

MISSION

At HealthCloud, we are committed to simplifying hospital, laboratory, and clinic operations. We build secure, high-performance systems that let every medical professional focus on what matters most: patient care.

VISION

To become the global pulse of healthcare technology. We strive to empower providers with scalable systems, creating a future where digital efficiency leads to zero errors and maximum care.
